ATTEN®
INSTRUMENTS

It is one portable, temp-control and temp adjustable soldering iron. Ceramic heater, and three cores grounding wire ensures safety of soldering works.

AT-SS-50

Specification:

input voltage: AC220v 50 hz/110v 60 hz
Power consumption: 50 w
Temperature range: 200 ℃ ~500 ℃
Temperature set: knob adjustment
Temperature stability: + / - 1 ℃ (static)
Maximum temperature: 40 ℃
Calibrate temperature: simulated temperature
Tip for ground impedance: < 2 Ω
Tip to ground voltage: < 2 mv
heating element: 50w,four cores,ceramic
Standard tips:AT-900M
